

PACKAGING FEES

The packaging fee is the fee that the producer pays to TMResponsibility AB ("TMR") for collection, sorting and handling of end-of-life packaging. The packaging fee is calculated per material type and charged as a cost per kilograms of packaging material. Excess payment, if any, will be refunded.

Packaging fees for paper and plastic are categorized according to the recyclability of the packaging material. The easier it is to recycle the packaging material, the lower the packaging fee. Plastic includes three categories of recyclability and paper two categories.

TMResponsibility AB is an approved producer responsibility organization and is not allowed to distribute profits.

REPORTING/INVOICING

On the 25th of the calendar month that follows the end of each quarter, at the latest, the Client shall report to TMR the actual packaging volume in kilograms that the company has brought to the Swedish market during the past quarter/month, according to the categories specified below. The account shall be reported on TMR's portal, <https://portal.tmr.se/>

TMR shall bill the client packaging fees on a quarterly/monthly basis in arrears, based on the received reports. The minimum debit per quarter is SEK 1 000.

TERMS OF PAYMENT

Payment must be made within 30 days from the invoice date (due date). In case of late or non-payment, TMR reserves the right to charge late payment interest and late fee in accordance with applicable law.
